### **E-Reverse (Forward) Auction Instructions for Bidders**

1. Tender cum Auction is a combination of Tender Followed by Auction (Reverse / Forward Auction). It is also called as eRA.
2. In eRA, Tendering process will be followed as per the instructions given in NIT / Tender Documents. Subsequently, Reverse (or Forward) Auction as the case may be, will be conducted amongst techno-commercially qualified/ approved bidders after Opening of financial / pries Bids online The reverse ( or Forward)Auction will be normally initiated after Opening of Price Bids. There will be no participation fees for Auction.
3. Only such bidder- who has been found techno-commercially qualified as per requirements of the tender will be permitted to participate in the Reverse (Forward) Auction.
4. After opening of the price (financial) bids and system displays L1 (or H1) price based on either over all basis or item wise/ lot basis automatically. Using this system provided price, which would be auction start price (can be changed, if required), procuring entity will create Reverse (forward) Auction and publish the same.
5. The techno-commercially qualified bidder will receive Auction information through SMS & email. The participating bidders get an opportunity to revise their prices (reduce in case of reverse Auction and increase in case of Forward Auction). It allows bidders multiple opportunities to offer a price.
6. Procedure in submission of bids by the bidders during Reverse/Forward auction online.
  - i. Bidder shall login using their login ID & Password and then using DSC.
  - ii. Click on my Auctions button given in left side of page, to view Action details for Which Techno-Commercially qualified.

7. Terms and conditions for Reverse (Forward) Auction are as follows:

- Reverse (Forward) Auction will be initiated after opening of price bids. The schedule of Reverse (Forward) Auction shall be intimated to the bidders by the system through their registered email and SMS to mobile number.
- Only those bidders whose price bid has been opened by the Tender Inviting Authority shall be eligible to participate in Reverse (Forward), process. However, in case of Reverse Auction process, the H1 bidder whose quote is highest during tender will not be allowed to participate as per H1 elimination policy. Similarly, in case of forward Auction process, the L1 bidder whose quote is lowest during tender will not be allowed to participate as per elimination policy.
- Bidder are advised to read the 'Reverse (Forward) Auction terms and conditions' details of Reverse (Forward) Auction event carefully, before auction event.
- Reverse (Forward) Auction can be held into two ways as indicated in the tender either on the Total overall cost of items / works or on item wise/Lot wise.

Current Bid Price in the Auction.

Start Price.

Decrement (or Increment) value.

- The bidding direction in case of Reverse Auction is downward and for Forward Auction is Upward.
- In case of Reverse Auction, in order to displace standing lowest bid and to become "L1", a bidder can offer a minimum bid decrement or in multiples of detrimental value upto above Max Seal %.

For ex:

*Current price: Rs. 49,000, Decrement value: Rs. 1000*

*System Defined Maximum Seal %: 50*

*In this case a bidder can quote minimum decrement amount as Rs 49,000-1000=Rs. 48,000 and maximum decrement amount is  $49000-24500-1000=23500=24000^*$ .*

*In case of Forward Auction, in order to displace a standing highest to become "H1", a bidder can offer a minimum bid increment or in multiples of incremental value upto or below Max Seal %.*

For ex:

*Current price: Rs. 49,000, Incremental value: Rs.1000*

*System Defined Maximum Seal %: 50*

*In this case a bidder can quote minimum increment amount as Rs.49,000+1000=Rs.50,000 and maximum increment amount as 49000+24500+1000=74500=74000\*. This continues as an iterative process.*
